GENERAL INSTRUCTIONS

At the present time, there are three telephone switchboards in operation at this Post - the Post Switchboard, serving all military activities, the Hospital Switchboard, serving the Hospital Area, and the Area Engineer Switchboard, serving the U. S. Army Engineers.

Intercommunication facilities have been installed, so that any switchboard may be reached from all working extensions. When calling any Military Headquarters from a line off the Area Engineer Switchboard, ask the operator for the Post Switchboard; when calling the U. S. Army Engineer from a Post Switchboard line, ask the operator for "Area Engineer "; when calling the Hospital Area from either a line off the Post Switchboard or from a line off the Area Engineer Switchboard, ask the operator for the Station Hospital, and vice versa.

This Temporary Directory is published for your convenience. Please refer to it whenever possible and eliminate unnecessary calls. In the event any number listed is incorrect; please call "Directory Section - Ext. 302".

PERSONAL CALLS

The use of Post Telephones for incoming, outgoing and intra-post personal calls is prohibited.

The Post Telephone system will be used only on official business, and the length of such calls will be kept to an absolute minimum.

TOLL CALLS

In order to place a toll (Long Distance) call, it is necessary that you ask for "Toll Operator", then state the following information:

- (a) Your name and number of the phone from which you are calling.
- (b) The city, name and number of the person you are calling.
- (c) The name of the officer authorizing the call.
- (d) The designation of the call. (Official or Personal)

There are three classes of Toll Charges:

STATION TO STATION

Are calls in which the calling party gives the location, telephone number or street address of the party called. It is considered completed when anyone answers the phone.

PERSON TO PERSON

Is similar to the above-mentioned, with the exception that the person being called has his NAME included along with the number. This call is not completed unless the person in particular answers the telephone.

COLLECT CALLS

Is the acceptance of the toll charges by the person or station to which the call is being made.

GENERAL

CALL BACK - No requests will be made of the Post telephone operator to locate persons who do not answer or to "Call Back" in the event a called line is reported busy.

SERVICE CRITICISM - Do not reprimand the operator, or distract her with a complaint. In the event you are rendered any discourtesy, or other forms of inefficiency, simply ask for the operator's number and send it along with your report to the Post Signal Office.

RECALLING OPERATOR - If you wish to attract the attention of the operator, flash the receiver button slowly. A rapid flash will not register on the switchboard.

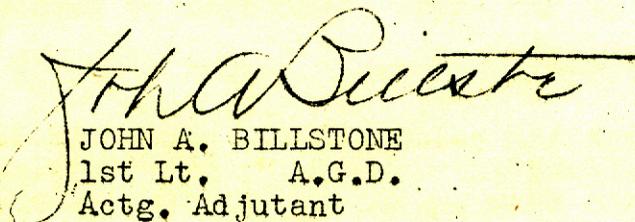

COMPLETION OF CALL - Place the receiver properly on the hook or in the cradle so that the line will not be left open. If it is, you will not be able to receive any calls.

MAINTENANCE - If you wish to have an extension added or your present telephone re-located, it is necessary that you forward a "Maintenance Report" to the Post Signal Officer. This procedure will enable the Signal Officer to give it prompt attention. No service will be rendered without the standard form. - (See adjoining page).

By Order of Colonel LAWHON:

JOHN A. BILLSTONE
1st Lt. A.G.D.
Actg. Adjutant

OFFICIAL:

JOHN A. BILLSTONE
1st Lt. A.G.D.
